

# Staying Connected: Conversations with Teachers of Mathematics

You are cordially invited to attend the South Carolina Council of Teachers of Mathematics' series of Teacher Conversations with leaders in our profession.

## 4:00 pm – 5:30 pm Keynote Speaker

Each of the five events will feature a keynote speaker who will inspire us, reminding us why we love teaching and learning. We will be placed in breakout sessions to discuss what we heard and brought back together to have a chance to reflect and ask questions.

## 5:30 pm – 6:00 pm Exhibit Exploration

Exhibitors have been invited to share their newest products and resources with our attendees.

## 6:00 pm – 7:00 pm Special Topics

The third session will be devoted to special interest areas, including resources and tips for the online teacher and other timely issues. All members attending will be eligible for our many door prizes. The November 12th session will be our SCCTM Annual Business Meeting.

One fee for the entire series!  
Registration online at [scctm.org](http://scctm.org)  
Free for all SCCTM Members\* and  
only \$50 for nonmembers

\*2020-21 SCCTM membership must be current
