Submissions for the SCCTM News E-blast

The SCCTM sends out a monthly news blast. The format for submissions is a short (less than 250 words is suggested) description paragraph and links to any flyers or forms on the originating

organization's website/storage. This format avoids us housing other organization's documents/flyers on our server's limited space. All submissions must also meet our mission as stated on our website. Mission Statement:

"The South Carolina Council of Teachers of Mathematics acts to support quality mathematics teaching by advocating at the state level for South Carolina educators and students; providing opportunities for leadership, professional development, and networking; and encouraging the creation of research-based curriculum, instruction, and assessment."

Requests from organizations outside SCCTM need to be in by the first of the month for inclusion in that month's e-blast, because they must be approved by our editorial committee.
